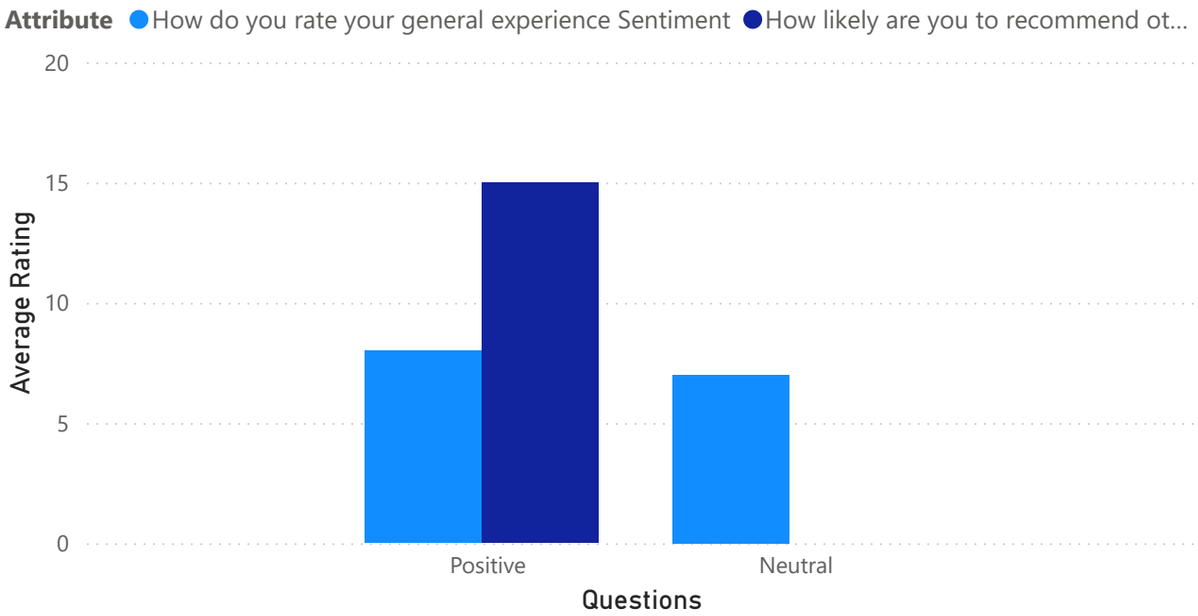
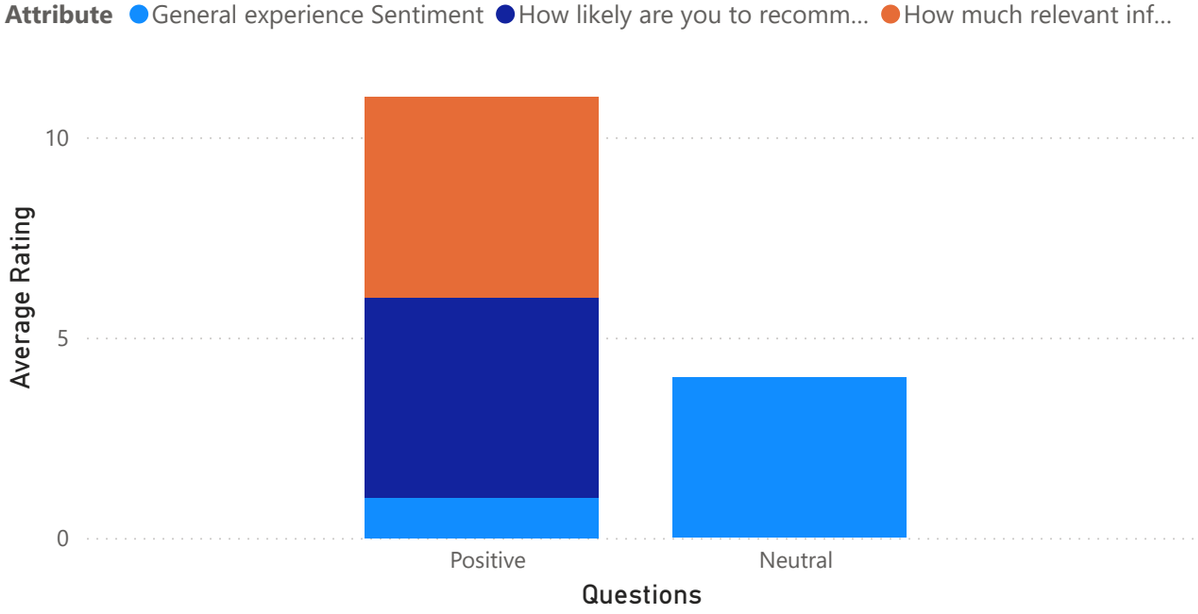
Trainers Rating of the progam



In a single sentence, what did you least liked about the session?
I would have appreciated more engagement or questions from the audience during the session.
It was very engaging.
Less interaction with the audience (students); better to encourage students to ask questions
My own setup was not amazing.
no comment available
Nothing
nothing everything was great.
Nothing to be honest
Nothing, that came to my mind.
Rather than a Q&A if there would be some type of why where the audience could participate
The time was short and can't able to address what I want to adress
There was less interaction from the highschoolers.
There was nothing I particularly disliked about the training; it was well-structured and engaging throughout.

Engineering Basics Anonymus Rating from Trainees



Value	In a single sentence, what did you like most about the training?
Neutral	I liked how beginner friendly the content was.
Neutral	I liked meeting with the different instructors and learning about their experiences. I enjoyed learr about new technologies and frameworks and career paths that I can take one day. I liked that we taught by industry professionals so they knew a lot about the field and gave us very good advice
Neutral	Is getting more than one option to decide for your career
Neutral	Students eagerness to learn, the coordinator commitment
Positive	I liked how beginner friendly the content was.
Positive	I liked meeting with the different instructors and learning about their experiences. I enjoyed learr about new technologies and frameworks and career paths that I can take one day. I liked that we taught by industry professionals so they knew a lot about the field and gave us very good advice
Positive	I liked the communication and networking aspect of things. I also enjoyed learning about techno that I had never heard of before.
Positive	Is getting more than one option to decide for your career
Positive	Students eagerness to learn, the coordinator commitment
